Both bedrooms have wardrobes and drawers/storage space for clothes. The main double bedroom is comfortably large, with a window looking out down the footpath, while the twin bedroom also provides plenty of space for the two single beds.

The kitchen is equipped with a fridge/freezer, gas cooker (hobs and oven), a modern stainless steel sink unit, and you'll find a kettle, traditional espresso coffee maker, cutlery, plates and bowls, serving dishes, cups, glasses and just about everything else you are likely to need.

The living/dining room area is bright and airy, with a large original open fire at one end. The original old mountain house was totally renovated by our family some 40 years ago but elements of the original house remain if you know where to spot them, most obviously the fire place and the traditional, beautiful stone roof.
